**PRESIDENT'S MESSAGE**

---

Whoa is it hot in the South. Hope everyone went North for the summer. Well here we are in the middle of Summer. Hope all are enjoying their travels wherever they may lead. Remember we need Articles of your travels for the next newsletter.

ACRE was a blast this year. This was our fifth and the best. Seminars, good food, meeting new people and renewing friendships were had by all. Steve Masterson and crew did a great job. Don't miss the next one.

After ACRE, Marie and I spent two weeks at Douglas Dam with Jim and Linda Jackson. We had a very restful time getting ready for another and hopefully the last surgery. I am doing well and appears we have found the sweet spot. We are guarded optimistic.

A survey has been sent out to gather member's feedback for future Rallies. Sixty invitations were sent out but only 15 have been completed. More information is below but **PLEASE** complete your survey to help guide the Officers in the future. If you don't respond, you can't complain. Don't forget to check your **SPAM** folder.

# PRESIDENT'S MESSAGE (continued)

The Fall Rally is at Bear Creek in Asheville, NC. I am sure David and Robin Hyatt, our Hosts, have a great time planned for all to enjoy. More info at end of Newsletter. **BIG NEWS** We just heard that there are still 18 sites available for reservation, so our deadline has been extended to September 1<sup>st</sup>. After that date, it will be if sites are available. Please make your reservations ASAP.

We are still in need of Rally Hosts for Spring 2020 in Myrtle Beach.

Hugs,

Craig Rickenbach, President, Chapter 29 Carolina Rovers

**PS:** We found out that a member tried to make a reservation on July 19 and was told by a new campground staff member that nothing was available. No name was taken of our Carolina Rover Member. If this happen to you, please call back or let me know at 803-372-2998.

## SURVEY

Hi All,

I hope everyone is enjoying the summer traveling wherever your heart wants to take you. Chapter 29 Officers, during the Spring Rally, voted to create a survey requesting feedback from members in order to improve and create more successful Rallies. The Chapter membership is based on dues per rig. The survey will also be based on these same criteria and will be sent to the primary rig owner's email. We encourage all couples to work together on survey and respond as one. For those wives who have "Technology challenged husbands", the Officers request your help. (LOL) We have quite a few single's only rigs and this is the only way the Officers felt each rig would get equal representation. Please be frank with your opinions.

The survey will come through as From: Craig Rickenbach  
[REDACTED] with a box invitation to click to take survey. Also, please check you Spam Box.

If you have already taken the Survey, we thank you. **If you did not get a request for a survey or perhaps deleted it through you Spam folder, please let me know and I will forward the request to you again.**

We appreciate your input.

Hugs,

Craig Rickenbach, President of Chapter 29, Carolina Rovers.

# RECOGNITION FOR Steve Masterson

It is my pleasure to be able to pass the wonderful news below on to all of you. I'm sure you will agree that this is a very well-deserved honor and we're so lucky to have Steve Masterson in our Chapter. Please join me in congratulating Steve for a (many) job well done!!!!

---

*(This email was sent directly to Steve Masterson):*

As you may know, we recently announced the Peterson Spirit Award last month. This award is meant to recognize those that demonstrated a specific action that call back to our core value of caring and sharing. You had several submission for this award! However, we feel your continued support over combined years is something that would not be properly represented under the Peterson Spirit Award program and guidelines. With that being said, we would love to present you with the Escapees President's Award, which is the highest honor that can be given to an Escapees member! We would be honored to give you free admission and present you with this award in person at the 60<sup>th</sup> Escapade in Rock Springs, WY on June 21-26, 2020. If you are unable to attend we will make other accommodations for you to receive your award.

***Excellence can be obtained if you...***

**CARE** *more than others think is wise,*  
**RISK** *more than others think is safe,*  
**DREAM** *more than others think is practical,*  
**EXPECT** *more than others think is possible.*

Again, we can not thank you enough for all you have done and continue to do for this great organization. Without people like you, we would not be the same!

Sincerely,  
Travis Carr  
**President | Escapees RV Club**  
[www.escapees.com](http://www.escapees.com)

# *In Memory of Keith Linman*

It saddens us to announce that Keith Linman passed away Saturday, July 20. Please join us as we send his wife Ginny our condolences and continue to pray for his family.

Keith & Ginny Linman

# Escapees Census Provides Snapshot of RV Trends

(5/29/2019)

Story by **RVBusiness**

Submitted by Steve Masterson - SKP #95338

**NOTE: The entire article can be accessed at**

<https://www.escapees.com/census-results-are-in-who-are-rvers/>

You can take a look around BLM land any given winter the last few years and see that the RVing lifestyle is changing more rapidly than in previous decades. Snowbirds are now accompanied by young families exploring the landscape. Class A motorhomes now camp alongside hand-built trailers, converted sprinter

vans and a wide variety of other RVs. The desert glitters with the reflection of roof-mounted solar panels while the sounds of rumbling ATV engines and kids' laughter are heard throughout. This is a very different scene than even 10 years ago when solar power was less accessible and boondockers instead relied on generators and resource conservation. There were fewer families traveling with their young children. What do these changes mean? They mean the RV lifestyle is healthy and growing. They mean there are more RVs on the road now than ever before, a claim backed up by **data from RV Industry Association (RVIA)**. They also indicate that a wider variety of people now enjoy RVing.

To get an idea of who contemporary RVers are, we, Escapees RV Club, circulated a census among the RVing community, garnering the feedback of nearly 7800 RVers. The census was open for five months, from November 30, 2018 to April 12, 2019 and included input from a wide variety of RV-owners, though the results show that a majority of respondents are Escapees RV Club members. The following results are

# Escapees Census Provides Snapshot of RV Trends (continued)

Story by **RVBusiness**

Submitted by Steve Masterson - SKP #95338

## Census Overview- The Majority

As anticipated, most census respondents (57%) identified as being of or more than 65 years of age. When asked how many years they have been RVing, 36% of respondents selected 15+, and 48% of them currently travel full-time. Given these figures, it's reasonable to conclude that many of today's RVers have been RVing at least part-time since their 40s and 50s. We'll expand on this more in a bit.

The majority of our respondents also share that they travel often. Sixty-one percent state they stay in one spot for less than 2 weeks at a time. On top of this, 40% travel 5,000-10,000 miles per year by RV, with 15% topping 100,000 miles per year. These RVers run a lot of road under their tires, indicated by 60% stating they spend at least half of the year traveling outside of their home state or state of domicile. To put these figures in perspective, it is roughly 3,000 miles from Seattle, Washington to Orlando, Florida. This means some of these RVers are driving enough miles to cross North America coast-to-coast several times in a given year! Their camping choices tend to focus on a mixture of private campgrounds, state and national parks, and public lands.

## Working-Age RVers

Considering how many RVers began traveling in their 40s-50s, it's no surprise that this same age group is on the rise among today's RVing community. Of 7800 survey respondents, 43% are under 65, the usual age of retirement. Though larger industry research indicates this age group represents a smaller percentage of all RVers, data also shows that their numbers are climbing. It is refreshing to see growth in this demographic as it is younger RVers who will continue to sustain this lifestyle as the older generations hang up their keys.

# Escapes Census Provides Snapshot of RV Trends (continued)

Story by **RVBusiness**

Submitted by Steve Masterson - SKP #95338

One reason why more and more working-aged RVers are hitting the road is it has gotten much easier to **stay connected**. When many of today's long-term RVers first hit the road 15 years ago, landline phones and USPS were still the dominant means of communication while internet and email access improved. With advances in technology and internet access, our cell phones now manage phone calls, text messages, email accounts, social media access, video conferences, and even some word processing and graphic design! These handheld devices make it much easier to conduct work remotely, often serving as an internet source and therefore making it easier to transition many traditional careers into ones that can be fulfilled while putting miles under your wheels. Supporting this, 25% of survey respondents indicated they work while on the road, with 58% of them working remotely at least part-time.

If you've spent much time in an RV, you understand that space is a commodity in most rigs. How do those who require a home office in their RV manage, given the already limited space? While there are blog posts (**like this one**) and videos out there that showcase the creative ways RVers maximize space, it's encouraging to hear that manufacturers are paying attention, too! "With mobile working growing in popularity, Winnebago continually seeks effective designs to enable both full-time and casual workers," said Winnebago Product Planner Nick Davis. "Whether it be better space utilization or easier access to power, many benefits extend beyond the mobile worker to any level of RV enthusiast."

## So, Who All Is in These RVs?

Considering the input of all survey respondents, 76% state their RVing household consists of only two opposite sex travelers. Sixteen percent travel solo, 3% travel with their children, and 2% travel with a same-sex companion. Fifty-six percent also travel with a pet, including dogs, cats, reptiles, hamsters, birds, and even sugar gliders!

While the majority of responses identify as Caucasian, it is encouraging to see that Hispanic, African-American, and Native American RVers are represented in these results, too. **Data shared by Kampgrounds of America** also indicated growth among these groups, particularly when surveying those who are new to camping. We hope to see these numbers continue to grow as the RVing community becomes more inclusive and supportive of all who want to enjoy the lifestyle.

# Escapees Census Provides Snapshot of RV Trends (continued)

Story by **RVBusiness**

Submitted by Steve Masterson - SKP #95338

## Why Escapees?

Since 1978, Escapees has been the leader in educating people about the RVing lifestyle and fostering a community among RVers. We have also maintained a reputation for being one of the only community-focused clubs who actively fight for the rights of all RVers. This census is one way that we ensure we are considering the needs and goals of all RVers as we undertake those challenges. We appreciate everyone who took the time to provide us with information that equips us to better advocate on their behalf.

# TRAVELER'S CORNER

## Spring 2019

By Craig & Marie Rickenbach

Two weeks after ACRE, we went to Douglas Dam in Sevierville, TN for fourteen days. Jim & Linda Jackson joined us as neighbors. Many nights we had picnic dinners together. We went shopping at the Knife Store, Tool Store, Lodge Cast Iron Store and the Outlets. One day was spent in Gatlinburg shopping and site seeing. Jim took us on a tour of Townsend, TN and showed us the campground he worked at. We did a tour of four campgrounds doing research for a possible combined Rally with Chapter 42 Ken/Tenn. This may not sound all that exciting, but we sure did a lot of resting and watching the lake.

# ***TRAVELER'S CORNER***

## ***Flight 93 National Memorial***

**By Ron Johnson SKP#104509**

The Flight 93 National Memorial is located at the site of the crash of United Flight 93, which was hijacked in the September 11 attacks. The memorial, located in Stoystown, is about 2 miles north of Shanksville. The memorial honors the passengers and crew of Flight 93, who stopped the terrorists from reaching their target by fighting the hijackers. (NPS.gov)

The Flight Path Walkway (black granite pavers) and Overlook flanked by the Memorial Walls. As you walk through the Portal Walls toward the Overlook, you are literally walking the path that Flight 93 flew in its final moments. High textured concrete walls frame the sky where Flight 93 descended to the crash site.

**View from the Overlook**

# ***TRAVELER'S CORNER***

## ***Flight 93 National Memorial (continued)***

### **By Ron Johnson SKP#104509**

The Memorial Plaza is a 1/4-mile walkway along the crash site and debris field which leads to the Wall of Names, located along the flight path.

The Wall of Names contains forty white, marble panels aligned along the flight path of Flight 93 and pointing towards the crash site. Each panel is inscribed with the name of a crash victim. The Overlook is visible in the background.

# ***TRAVELER'S CORNER***

## ***Flight 93 National Memorial (continued)***

**By Ron Johnson SKP#104509**

A large boulder in the middle of the field was placed by the National Park Service to mark the spot where the nose of the plane plummeted into the ground.

Tower of Voices – A 93 foot tower containing 40 wind chimes meant to echo the voices of the passengers and crew. The polished aluminum chimes vary in length from 5 feet to 10 feet and varying tonalities, or voices.

# **TRAVELER'S CORNER**

## **Alaska**

### **By Eric and Tami Johnson - Techno RV**

Editor's Note: Most of you know Eric and Tami Johnson - long-time vendors who have been to many of our rally events. After following their FaceBook posts for their current Alaska trip, I asked Tami if I could post some of their comments and pictures - to which she gladly agreed. Below is only one of her posts and some pictures. If you would like to follow them on Facebook, she is posting some amazing pictures. Steve and I are "traveling" in Alaska via posts from all of our friends. ....maybe one day we'll actually make the trip. Enjoy!

Dianne Wood

We are in Homer, Alaska this week, and we flew to Katmai National Park a couple of days ago in a float plane. The plane itself was cool, but the park experience was one that Eric and I were ridiculously looking forward to. It's the thing you see in National Geographic pictures - grizzly bears catching (and eating) salmon while they jump up the falls.

The day was as incredible as you would imagine. When we landed on the water outside the very primitive park headquarters, there were grizzly bears on the beach where we landed....grizzly bears just walking around. I was kind of scared to get out, to be honest. We knew it was going to be an adventure for sure.

On our way into the headquarters, we were rushed inside since a juvenile brown bear was running around the building. We had to stow all food, including TicTacs and flavored water, into a locked storage building before leaving the headquarters. They want as little human influence as possible in the park, and definitely no food.

To even go into the park, you had to sit through a 20 minute "bear school" where they told you NOT TO RUN if you encounter a bear on the path, to walk 90 degrees off the path into the woods if a bear approached you, and to do all other things that made you think you were going to die on the path to the falls. We passed bear school, but were hesitant to go down the path...but we did...and we made it.

No picture or video could do our time there justice. We were mere feet away from young bears wrestling, eating salmon from the river, catching salmon from the falls and more. It was beyond anything I have ever seen.

We saw so much, I had to work to remind myself that this was not a zoo but these were wild bears doing what they naturally do to eat in the summer. Park Rangers were more than happy to tell stories of visitors having hour delays on the path when bears were napping or having to stay inside for periods of time since the bears were outside. Every few hundred feet you walked on the path, you had a locked gate you had to pass through to contain the bears (and protect guests.) You learn quick that the bears and their natural existence was the most important thing here and not us.

I picked a few pictures and videos from the hundreds we took to let you see a bit of what we saw, but I am sure I will share more later the more I go through my files. It was one of those things that just makes you speechless.

## ALASKA

By Bill & Marilyn Woodside SKP #104293

Editor's Note: We are so very fortunate to have RV friends - whether friends from our RVing travels or from other SKP Chapters. Hopefully you enjoyed the pictures from Eric & Tami. We also obtained permission from Bill & Marilyn Woodside to use some of their Alaska pictures as well. Bill and Marilyn are members of SKP Chapter #41 - NY. It never ceases to amaze me of all of the beauty in our country!!!!

Celebrating our 50th wedding anniversary by returning to our most favorite place, Alaska. Why do we love it? We respect and admire the beauty of the land, the proof of the people's struggles with the unforgiving landscape (ie. the success of the pipeline, the challenges of the 1964 earthquake), the heart and soul of the native peoples, and the open arms welcoming the visitors to the land the Alaskans love deeply and forever. And of course there is the mountain, Denali, which we've been fortunate to see clearly and fully every trip we've made there.

View of the Canadian Rockies outside our plane window.

## ***Pine Mountain, GA - Biblical Museum***

### **By Steve & Dianne Wood #113382**

For those of you who like history, a trip to the Biblical Museum in Lagrange, GA, is a real treat. Our guide was extremely knowledgeable. The museum depicts how people lived in the deserts during Biblical times. If you're in the area, it's well worth the trip to step back in time.

Home Sweet Home. All tent walls are made from hand woven fabric from sheep's wool.

The girls are taught to weave the material for the walls. Once they are proficient, they begin to weave and make their own tents which they will own in their marriage.

Gathering room.

Guide demonstrating how to take down the tent poles. Obviously, I'm a wimp because they are very heavy and I could barely move them. It is the responsibility for the women to take down and move tents, since they are the owners of the tents. The men's job was be shepherds of the flocks.

Religious Alter for Sacrifices

# SKP ACRE 2019

## Pine Mountain, GA

For those of you who missed SKP ACRE in Pine Mountain, GA, this year, you really missed a treat. We enjoyed Calloway Gardens and site seeing in downtown Pine Mountain as well as Karaoke night, catered meals (LOTS OF FOOD - YUM), auction for St. Jude, vendor presentations, local area history, and on and on. We enjoyed seeing old friends and making new ones. There were 59 RVs, 104 attendees for ACRE, 62 attendees for Boot Camp, and 15 weigh ins. We all look forward to our 2021 ACRE which will be back in Pine Mountain, GA, again. What a great place!

## **FOR SALE**

Thousand Trails/NACO Platinum Nationwide Membership.

Price: \$250 plus \$750 transfer fee

Location: Nationwide including Canada (63 parks)

This Thousand Trails, NACO Membership is one of the best you can find. Stay 21 consecutive nights at any preserve, then immediately go to another preserve (no days out of parks). No limit on number of camping days per year. No nightly fees. Make reservations 90 days in advance. The selling price does not include a mandatory \$750.00 transfer fee to Thousand Trails paid by buyer. The transfer of this membership will be handled between current member, buyer, and Thousand Trails. This is a great deal for full timers. My current annual membership fee is \$612.00 and pays for itself with about 15 nights of camping each year. My annual cost has increased only about \$5.00 in four years. I can't guarantee the buyer will have the same yearly rate but it probably won't drastically change. Also, the annual fee for the first year will be prorated based on date of membership transfer.
